

Looking

*Christmas and looking ahead
to the New Year at MBNS*

Are you noticing how many of your friends are looking younger these days? What could be their secret to their youthful appearance? Well maybe your friends have found the MBNS Clinic in Thame! MBNS is no longer the best kept secret anti ageing clinic that it used to be! People from all over the country continue to treasure the wonderful medical cosmetic services that their Specialist Nurses do so well.

One of the more popular treatments these days is the Sculptra® injection face lift. This, along with the tried and tested frown-relaxing and dermal filler treatments make up a few choices in

their specialist range of treatments. Sculptra® has become very popular with their male clientele also. This liquid face lift consists of up to three treatments a month apart that gives a natural youthful look that lasts up to three years, by stimulating your own body to produce collagen.

Also, the MBNS team are really excited about their new 21st-century approach to skin rejuvenation including

good looking forward

“micro-needling therapy” which offers nature a helping hand. This is their most natural non invasive treatment yet! This incredibly affordable and simple treatment has been a break through in medical aesthetics as it stimulates the body’s own collagen through a course of treatments. The result is brand new, younger looking skin! Patients who have undergone this new treatment have been astonished at the reduction in the crêpey wrinkles of their complexions, the healthy new plumpness of their skin, and the reduction in patchy pigmentation and acne scarring. During the treatment, potent serums are massaged into the skin and penetrate down into the dermis where they brighten and feed the skin. So much so that MBNS patients have reported that they receive compliments from their friends and colleagues on “how great” their skin is looking.

You can book a consultation with one of the MBNS nurse specialists to see if microneedle therapy would be a beneficial treatment for you, or to discuss any of the medical aesthetic treatments offered at MBNS.

A special look for Christmas

With the party season quickly approaching, you will want to look your best for the Christmas season.

And what better way than making your skin look and feel healthy than with the ID Bare Mineral range of make up. For that cover-girl flawless complexion, why not splash out on one of the “new in for Christmas” brush kits to ensure complexion-perfection.

Bare Minerals is the leading foundation in America, so literally better than all the rest! If you are looking for a simple way to apply and update your look, then why don't you pop into MBNS to show you the range. The starter kits are on special offer right now until Christmas, so if you purchase one for a friend or yourself, you can also get a free Make Up Consultation. What a great gift that is!

Treat someone to the ideal present
